

BUSINESS DESCRIPTION

Founded in 2006 and based in Boynton Beach, FL, Farata Systems LLC is a leader in business software development. The company is specializing in rich Internet enterprise-class applications built with Java, Flash and emerging technologies. Services provided by Farata Systems include software design and development, staff augmentation, education and training services for companies looking to create desktop and mobile applications that stand out from the competition.

Farata Systems operates in United States and globally. Our local operations include consulting services for companies in the New York and New Jersey area. Several of our employees are published authors and recognized world-class leaders in the IT industry. In addition, Farata develops business software for the companies worldwide through its outsourcing facilities, with the offices in Eastern Europe. Our customers include largest financial and retail companies in United States. Education and training services of Farata Systems include custom corporate training and mentoring programs in Java, Adobe Flex and Air and mobile development.
